

# Wisp

by Sarah Sutherland

[sarah@parallaxknitting.com](mailto:sarah@parallaxknitting.com)

## Difficulty

Beginner

## Finished measurements

Approximately 5 inches [13cm]  
wide / 84 inches [213cm] long

## Materials

[MC] 1 skein of bulky novelty yarn (shown: Milkyrobot Girls Throw Snow, super-bulky handspun, 40 yards[36m])

[CC] 1 skein coordinating fingering yarn (shown: Sandes Garn Sisu, 173 yards[158m] per 50g, colour 1042)

1 US #17/12.75mm circular needle

Tapestry needle

## Gauge

Not really important and difficult to measure

## Abbreviations

See <http://www.yarnstandards.com/knit.html>

This pattern is free for your personal use, if you want to use for commercial purposes, please contact the designer ([sarah@parallaxknitting.com](mailto:sarah@parallaxknitting.com))

## Pattern

Using MC, CO 12.

Work in garter st for a few rows. Attach CC and work a row or two.

Continue working in garter st alternating yarns somewhat randomly. To make the ends heavier and to get more oomph from the handspun, I recommend using more handspun towards the ends.

Work the final few rows in MC, and BO when you run out of yarn or like the length of your scarf.

## Finishing

Weave in ends

## About the designer

Sarah is enjoying flirting with freeform patterns and hopes you enjoy this one. She thinks randomness a good pattern.
